

5" Ringed Lizard

Green Pumpkin
Blue shown

The all new 5" Ringed Lizard features a soft formulated ringed body style with curly tail arms and an ultra-flexible straight tail design that has a small ball at the end of the tail. The Ringed Lizard can be used in practically any situation and is perfect for any rig that you use for soft plastic fishing. As you jig the lure in the water, the slightest of movements cause the curly tail arms to actively swim and allows the tail to dance and twitch with ease, while each individual ring of the body vibrates and releases air bubbles.
