

Mister Shad

There are plenty of reasons you should be fishing the 3½" Mister Shad, but what really makes this hollow-bodied swimbait exceptional is the solid core nose. This simple feature adds weight and addresses the 2 major tube jig issues.

Great paddletail swimming action

solid head

S5 - Silver Blue

128 - Perch

228 - Yellow Perch

4G - Purple Gold

15FTG - Mossy Firetiger

1PS - Shad

1. A tube lure with a hollow nose offers limited long-term rigging options. The Mister Shad on the other hand, with its solid-core nose, supports most if not all of the most popular soft plastic rigging options. As a swimbait, you can rig it with a jig head or Mister Twister® 3/0 Weighted Keeper™ Hook. You can also fish it either Texas or Carolina rigged.
2. Additional rigging options are not the only plus the solid core nose brings to this lure. Because the head is heavier, this 3½" minnow is better balanced. Rolling is eliminated, offering a steady, balanced retrieve.

The 3½" Mister Shad, in any of the six colors available, is very realistic looking with 3D markings along its raised lateral line and 3D eyes. Its oversized Mister Twister® shad (paddle) tail creates a perfect swimming action, and its 3½" length makes it ideal for largemouth or smallmouth bass, walleye, or stripers. Saltwater anglers will find the Mister Shad very effective for both redfish and speckled trout.

L-Comida

Mister Twister's 5" L-Comida is a combination of a 5" jerk bait with the appearance and action of a lizard. Every L-Comida features a flat finish for a superior natural appearance. Want more? The L-Comida's unique mix of Comida and Super Lizard has a improved swimming action. It also features two-tone tips and legs for added flash. Every L-Comida is *super* loaded with salt, and the L-Comida's soft texture makes it the ideal bass lure for shallow water, no-weight fishing. Rig it with a 4/0 or 5/0 Red or Bronze Mister Twister® Keeper™ Hook. No weight is needed. It can also be Carolina Rigged to fish drop offs and grass flats. The L-Comida is perfect for catching suspended bass in shallow water.
