

Mister Mino

Why you should be fishing the Mister Mino

- Slow fall, hollow tube style Mino design
- Live image design with true minnow action
- Life-like patterns, 3D eyes, and translucent colors
- Easily adapts to all popular rigging options

Mister Twister's Mister Mino is sized perfectly for trout, crappie, yellow or white perch, largemouth or smallmouth bass, walleye, and bream. In fact, it's ideal for any panfish. Rig it on a jighead (page 18) or, you can take advantage of the hollow body by rigging it with a tube jighead. Just slide the tube jighead (page 5) into the Mister Mino's body and seal it up with a splash of glue; either rigging is very effective. Add a Mister Twister® Spinner Form (page 18) for added fish-attracting flash and vibration. Use them in place of live bait and fish them with a cork or straight-line them. These lures are so versatile they can also be fished drop-shot style. Regardless of how they are rigged, the Mister Mino's great design and color selection makes these lures fish catching sensations.
