Here is a series of tiny finesse crank baits from Mister Twister® that will catch just about anything that swims... trout, bass, walleye, or panfish. Both the Crawfish and Meatloaf Shad are not only easy to cast, but there is absolutely no hook tangling. These deadly little floater-divers feature oversized 3D eyes and a fat micro body for high visibility under all water and light conditions. They even have a fish-attracting rattle, and they come in a variety of proven colors that allow any fisherman to "match the hatch." Twenty-first century razor sharp hooks. Handy stow away and retrieve packaging.
