### **Comida with Salt has 11 Grams of Bass Food**

Fishing just got better for the bass fisherman. Mister Twister has added salt to the Comida, its rugged 5" stick bait. This means every Comida now has 11 grams of bass food. It's the perfect meal for a hungry bass.

In addition, the Comida comes in a wide variety of proven colors big bass find hard to resist. Rig it as a wacky worm, drop shot style, fish it with split shot, or dead stick it. It's always effective.
