

Top Prop™ -Rattling

Patented

BB-Baby Bass

watermelon/
red & silver flake tail

Ordinary buzz baits sink when the retrieve stalls. With the Top Prop™ you can stop it, buzz it, stop & twitch until the bass can't stand it. And, with the Top Prop™ attached stinger hook, hook-ups dramatically improve. Top Prop™ fishing is weedless. Fish it in heavy weeds, lily pads and around cover where big bass hang out. The thicker the muck, the better it works.

PROPER RIGGING

1. Slip the Top Prop's stinger hook onto the bend of the Keeper™ Hook.
2. Push the entire Keeper™ Hook bayonet into the head of the Split Double Tail™ trailer.
3. Insert the point of the Keeper™ Hook into the back of the Split Double Tail™ pushing it through until the point of the hook comes through the top. Back it off slightly and you're ready for truly weedless fishing.
